

RICHARD J. DRISCOLL

CONSULTING ENGINEER

STRUCTURAL & FOUNDATION ENGINEERING

Profile

Richard J. Driscoll, Consulting Engineer (RJDCE) provides consulting structural and foundation engineering services to owners, design professionals, contractors and other construction project stakeholders in the northeast and mid-Atlantic regions. The practice specializes in managing the technical challenges and risks associated with foundation systems, below-ground structures, existing structures and construction in the urban environment. RJDCE utilizes a broad base of experience and knowledge to assist stakeholders balance performance, cost and risk on projects subject to uncertainty.

RJDCE's is based in Lebanon, NH. This location in the Upper Connecticut River Valley provides convenient access to New England, New York and beyond, including Boston, New York City and the Hudson Valley. A satellite location in Washington, DC serves the mid-Atlantic region.

RJDCE is licensed to practice engineering in several jurisdictions, including:

- District of Columbia (Civil)
- State of Maryland
- Commonwealth of Massachusetts (Structural)
- State of New Hampshire
- State of New York
- State of Vermont (Structural)
- Commonwealth of Virginia

RJDCE's principal is eligible for licensing as a civil and structural engineer in other jurisdictions and is qualified as Model Law Engineer by the National Council of Examiners for Engineering and Surveying, which facilitates licensing by comity.

RJDCE has completed a diverse variety of engagements in connection with residential, commercial and institutional buildings, water, wastewater and transportation infrastructure, construction claims and performance failures.
